DISCUSSION

The Force Road Oil & Vacuum Truck Company site is a former waste oil recovery facility. The site consists of several recovery and separation ponds. There is only one residence within one mile of the facility and the nearest perennial stream is over two miles from the site.

Due to the lack of receptors, the Force Road Oil & Vacuum Truck Company site does not meet the minimum criteria of a viable candidate for inclusion on the Superfund National Priorities List; therefore, the site is designated a disposition of No Further Remedial Action Planned (NFRAP), and at this time does not warrant further investigation under Superfund.

This site is being referred to the State of Texas for any appropriate action under the state's regulations.
